## QUALITY POLICY

CenterVue aims to provide its customers with outstanding products and services that comply with their expectations of high performance and reliability, ensuring constant satisfaction, fulfilling stated and implied needs.

The attention we focus on quality leads every aspect of our work and every step from the very first idea of the product to its final realization, monitoring all life-cycle stages.

We strive to provide reliable products, on-time delivery and dependable support to meet customers' highest expectations, maintaining and increasing customers' trust and satisfaction.

We believe that a Quality Management System can guarantee effective benefits to customers and address the needs of the company, improving the quality of the products and also of the work.

We maintain our Quality Management System so it remains efficient and effective, and continuously improve it, in compliance with our customers' requirements, regulatory and international requirements and internal needs.

We apply a continuous-improvement approach to all processes and activities, in order to enhance the quality, value and safety of the products and services that we offer to our customers.

CenterVue and its Top Management undertake to follow this Quality Policy and require all company employees and partners to do so.
